

Select the match day module

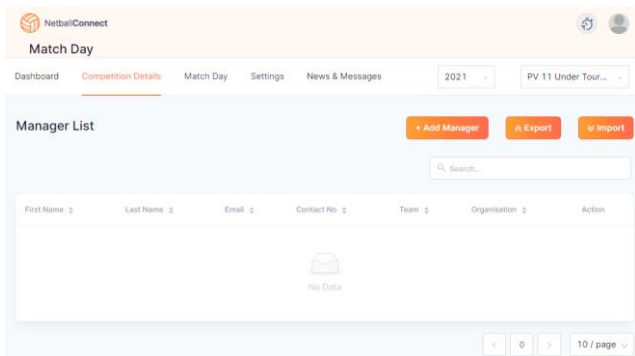

Select the relevant competition on the dashboard.

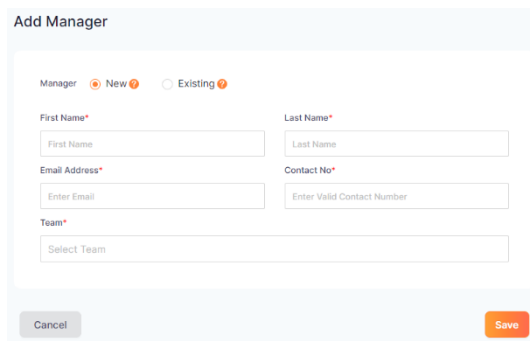

Select Competition Details > Managers.

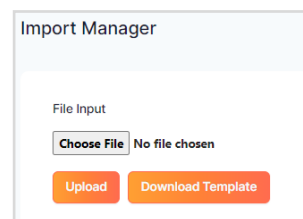

You have the option to add a manager at a time or import a list of managers.

To add a manager one by one select **+ Add Manager**. Enter details in exactly as the manager has in their Netball Connect user profile. New - a member that is not already a manager of this competition. Existing – a member that is already a manager in this competition. Save and repeat for other managers.

If importing managers names select **+ Import**. Select download template. Add manager data to the template. Once completed, upload the file.

Managers can view the teams matches on their schedule (home page) on the NetballConnect app.
