

MOVE COMPETITION should be used where an individual has registered to the correct club / association / league; however, has chosen the incorrect competition to register to.

No fees will be able to be refunded or requested to be paid via this process. If fees are required to be refunded by an organisation or paid by the individual, the best process is to deal with these fees offline, or ensure the TRANSFER process is completed.

An individual cannot be moved from an organisations 'Own Competition' to a 'Participating In' (and vice-versa) Competition. If this is required, a TRANSFER must be completed.

An individual can only Move Competition when moving into a competition with the same registration type. For example:

- if registered as a player, they cannot move competition as an official; or
- if registered as a junior player, they cannot move to be a NetSetGO participant.

In this instance, a de-registration or transfer should be completed for the initial registration (in line with the requirements outlined above), and a new registration completed under the new registration type.

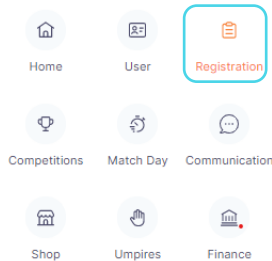

Netball Victoria Membership fees will still be 'capped' at the maximum amount an individual should pay when completing any further registrations (i.e. \$80 for a senior, \$60 for a junior, \$76 for NetSetGO, \$48 for Off the Court).

Once Move competition has been completed, this will:

- remove the player from any team they have been selected in for the competition which they are moving from; and
- remove any player stats allocated to that player in their original competition.

If any of the above is not applicable to a certain situation, please contact Netball Victoria via the ticket system in Netball Connect.

To move a player between competitions, see the following steps.

1: Select the Registration module
