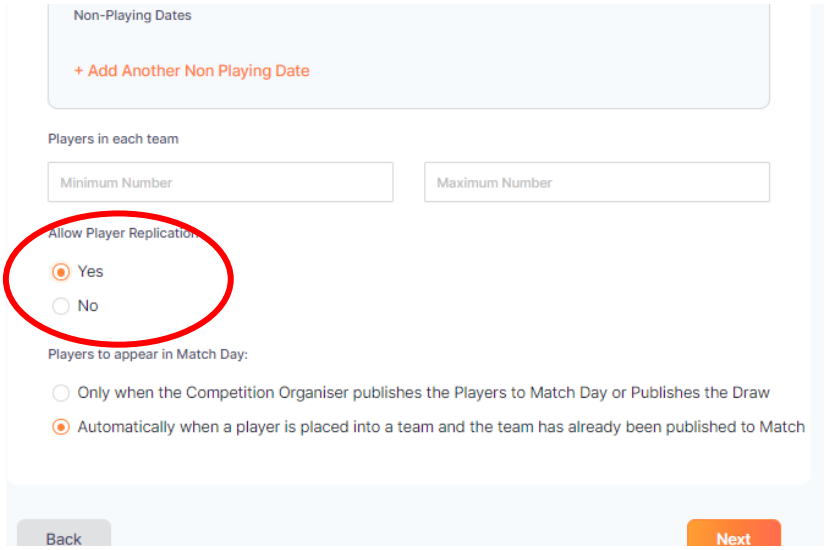
NETBALL CONNECT - REPLICATE PLAYER

The replicate player function will duplicate a registered player's name and allow that player to be selected into multiple teams. This will remove the requirement for individuals to register into the same competition multiple times.

Competition > Owned Competitions > Competition Details

The Association or League must enable the Replicate Player function. This can be done when creating the competition, or at anytime after the competition has been created.



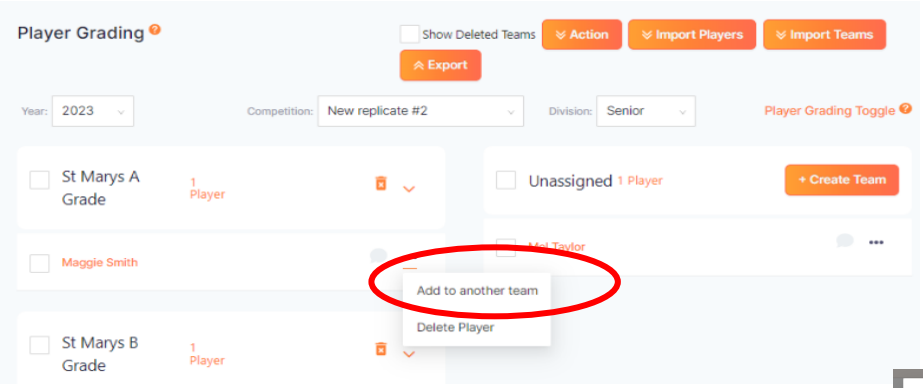
FOR ASSOCIATIONS

Competition > Own Competitions > Player Grading

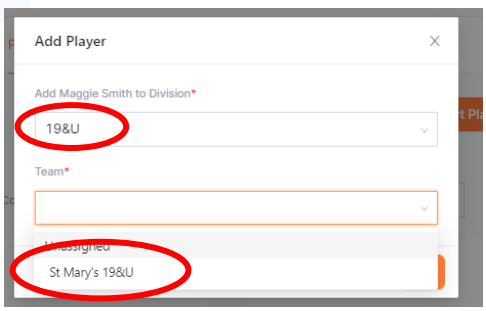
Select the year, competition name and division.

- The individual must be registered to the competition.
- The individual must be selected into a Team first.

Click the three dots next to the player's name.
Click *Add to another team.*



A pop-up box will appear.
Select the name of the division and the name of the second team that player will be participating in.

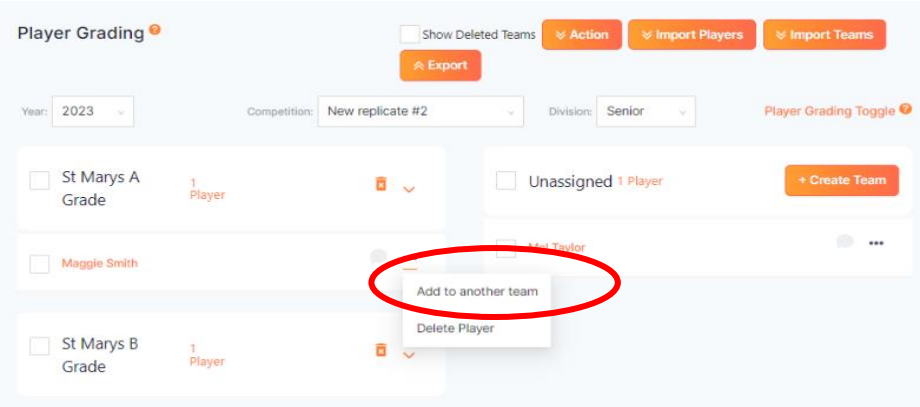


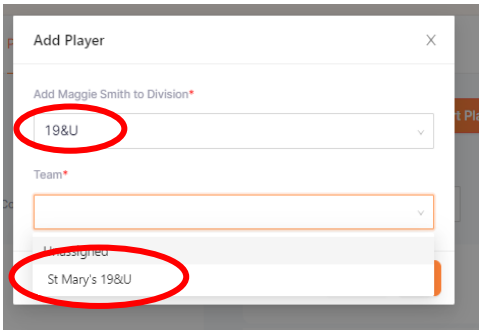
FOR CLUBS
Competition > Participating-In Competitions > Player Grading

Select the year, competition name and division.

- The individual must be registered to the competition.
- The individual must be selected into a Team first

Click the three dots next to the player's name.
Click *Add to another team.*





A pop-up box will appear.
Select the name of the division and the name of the second team that player will be participating in.
